## Independent Auditor's Report

To the Members of the Selectboard and Management of Town of Waterville Valley, New Hampshire

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Waterville Valley, New Hampshire as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Waterville Valley, New Hampshire, as of December 31, 2020,

59 Franklin Street, 2nd Floor Annapolis, MD 21401 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Management has omitted the management discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 29-32 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Waterville Valley, New Hampshire's basic financial statements. The accompanying schedules listed in the table of contents such as the individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

This information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### TOWN OF WATERVILLE VALLEY, NEW HAMPSHIRE RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED DECEMBER 31, 2020

Net change in fund balances - total governmental funds (Page 9)		\$	772,402
Amounts reported for governmental activities in the statement of activities (Page 6) are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Reduce expenditures for capital outlays increasing capital assets Increase expenditures for depreciation charges			541,095 (564,155)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-to debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.			
statement of activities. Reduction in Other Financing Sources for long-term debt issued Reduction in expenditures for principal payments on debt		_	(1,025,000) 506,781
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Town's share of New Hampshire Retirement System:			
(increase)decrease in net pension liability	(684,397)		
Increase(decrease) in deferred outflows of resources - Pension	417,237		
(Increase)decrease in deferred inflows of resources - Pension	63,930		
(increase)decrease in net OPEB liability	19,414		
Increase(decrease) in deferred outflows of resources - OPEB	1,388		
(Increase)decrease in deferred inflows of resources - OPEB	(2,334)	(194 762)	
		(184,762)	(184,762)
Change in net position of governmental activities (Page 6)		\$	46,361
		ې =	-0,001

The notes to the financial statements are an integral part of these statements.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of Waterville Valley is a New Hampshire Municipal Corporation governed by a Selectboard and other elected officials. The financial statements of the Town have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to the governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Town's accounting policies and its conformity with such principles are disclosed below. These disclosures are an integral part of the Town's financial statements.

#### Financial Reporting Entity

The accompanying financial statements present the Town and its component units. A component unit is defined by GASB as a legally separate organization for which the elected officials of the primary government are financially accountable. In addition, component units can be other organizations for which the nature and significance of their relationship with a primary government is such that the exclusion would cause the reporting entity's financial statements to be misleading. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Based on the foregoing criteria, no other organizations are included in the Town's financial reporting entity and the Town is not a component unit of any other primary government.

#### **Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities,* which normally are supported by taxes and intergovernmental revenues, constitute all of the Town's activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenue* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when they occur and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers all revenues except property taxes to be available if they are collected within 60 days of the end of the current fiscal period. A period of 180 days is used for property taxes due to large offsetting liabilities for school taxes payable, which are payable in installments though June 30, 2021. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Tax assessments (property and other taxes), grants, charges for services, and interest associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period when measurable and available. If any, only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Town reports the following major governmental funds:

- The *General Fund* is the Town's main operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.
- The *Capital and Noncapital Reserves Fund* is a capital projects fund that accounts for the Town's capital and non-capital reserves, which were created by vote of the legislative body and are restricted for specific purposes.

Private-sector standards of accounting and financial reporting issued on or before November 30, 1989 generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

*General Budget Policies* – General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements that govern the Town's operations. The Town votes appropriations by official ballot in accordance with State Statutes. Appropriations are made on an annual basis for the General and all major Special Revenue Funds. Project-length financial plans are adopted for all Capital Projects. Except as reconciled below, budgets are adopted on a basis generally consistent with the modified accrual basis of accounting. Management may transfer appropriations between operating categories as they deem necessary, but expenditures may not legally exceed budgeted appropriations in total. Unexpended balances of special articles for specific purposes may not be transferred. All annual appropriations lapse at year-end unless encumbered. In the case of emergency expenditures, over-expenditures are allowed under the provisions of the Municipal Budget Law (RSA Chapter 32) if prior approval is secured from the State Department of Revenue Administration. State statutes require balanced budgets, but provide for the use of beginning unassigned fund balance to achieve that end. In the fiscal year 2020, \$ 335,100 of the beginning General Fund balance was applied for this purpose.

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures and are therefore reported as part of the fund balance at December 31 and are carried forward to supplement appropriations of the subsequent year. Amounts recorded as budgetary expenditures in the *Budgetary Comparison Schedule (page 29)* are presented on the basis budgeted by the Town. The amounts differ from those reported in conformity with generally accepted accounting principles in the statement of revenues, expenditures and changes in fund balances as follows:

Expenditures and Other Financing Uses ~ Budgetary Basis (see page 29)	\$ 4,550,891
Adjustments:	
Encumbrances - December 31, 2019	468,576
Encumbrances - December 31, 2020	 (485,720)
Expenditures and Other Financing Uses ~ GAAP Basis (see page 9)	\$ 4,533,747

#### NOTE 2 - ASSETS, LIABILITIES, AND FUND EQUITY

#### **Deposits and Investments**

For financial reporting purposes, cash and equivalents include amounts in demand deposits and money market funds, as well as certificates of deposit and short-term investments with original maturities of 90 days or less.

## NOTE 2 – ASSETS, LIABILITIES, AND FUND EQUITY (CONTINUED)

#### **Deposits and Investments (Continued)**

With the exception of Library and Trust Fund monies, which are held by separately elected trustees, the Town Treasurer is required by State statute to have custody of all monies belonging to the Town and shall pay out the same only upon orders of the Selectboard.

The Town Treasurer shall deposit all such monies in solvent banks in the state or in participation units in the public deposit investment pool established pursuant to RSA 383:22. Monies may be deposited in banks outside the state if such banks pledge and deliver to the state treasurer as collateral security for such deposits in value at least equal to the amount of the deposit in each case. Whenever the Town Treasurer has an excess of monies which are not immediately needed for the purpose of expenditure, State statutes require the Treasurer, with the approval of the Town Manager, to invest the same in obligations of the United States government, in savings bank deposits of banks incorporated under the laws of the State of New Hampshire or in certificates of deposits of banks incorporated under the laws of the State of New Hampshire or in national banks located within this state or the Commonwealth of Massachusetts. Any person who directly or indirectly receives any such monies for deposit or for investment in securities of any kind shall, prior to acceptance of such monies, make available at the time of such deposit or investment an option to have such monies secured by collateral having a value at least equal to the amount of such monies. Such collateral shall be segregated for the exclusive benefit of the town. Only securities defined by the bank commissioner as provided by rules adopted pursuant to RSA 386:57 shall be eligible to be pledged as collateral.

The Town Trustees are authorized by State statute to invest Trust Funds, including Capital Reserve Funds, in obligations of political subdivisions and stocks, bonds that are legal for investment by New Hampshire savings banks except mutual funds unless the mutual funds are registered with the Securities and Exchange Commission, qualified for sale in the State of New Hampshire in accordance with the New Hampshire Uniform Securities Act of the New Hampshire Secretary of State's Office, and have in their prospectus a stated investment policy that is consistent with the investment policy adopted by the Trustees of Trust Funds in accordance with RSA 35:9. The Trustees may also invest trust monies in New Hampshire credit unions and in the public deposit investment pool established pursuant to RSA 383:22. Capital Reserve monies must be kept in separate accounts and not intermingled with other monies.

#### **Receivables and Revenues**

Revenues for the most part are recorded when received, except for the following items for which receivables have been recorded: *Tax revenue* is recognized in the period for which the taxes were levied. However, any taxes not liened or deeded within statutory time limits and 1.00% of the remaining uncollected balances are considered in determining the allowance for uncollectible receivables. Property tax revenues not collected within 180 days after year end are not considered an "available spendable resource" and likewise are reported as deferred inflows of resources in the governmental funds. As prescribed by law, the Tax Collector places a lien on properties for all uncollected property taxes in the following year after taxes are due.

#### NOTE 2 – ASSETS, LIABILITIES, AND FUND EQUITY (CONTINUED)

#### **Receivables and Revenues (Continued)**

The lien on these properties has priority over other liens and accrues interest at 18% per annum. If property is not redeemed within the 2-year redemption period, the property is tax-deeded to the Town. *Interest on deposits* is recorded as revenue in the year earned. Certain *grants* received from other governments require that eligible expenditures be made in order to recognize the revenue.

Revenue for these grants is recorded for the period in which eligible expenditures are made. Various *service charges* (Water, Sewer, Landfill, Ambulance, etc.) are recorded as revenue for the period when service was provided.

#### Interfund Receivables and Payables

During the course of normal operations, the Town has activity between funds, including expenditures and transfers of resources to provide services and fund capital outlay. All outstanding balances between funds are reported as "due to/from other funds".

#### Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the in the government-wide financial statements. Capital assets are defined by the Town as assets with an individual cost of more than \$5,000 and an initial estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the Town are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	20
Public domain infrastructure	40
Light vehicles	5
Heavy vehicles	10
Office equipment	5
Computer equipment	5
Other equipment and furnishings	10

## NOTE 2 – ASSETS, LIABILITIES, AND FUND EQUITY (CONTINUED)

#### **Deferred Outflows of Resources**

Deferred outflows of resources represent the consumption of resources that are applicable to future accounting periods. In subsequent periods, when expense recognition criteria are met, the deferred outflow is removed from the balance sheet and expense is recognized.

#### Compensated Absences

It is the Town's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All benefits are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### Long Term Obligations

In the government-wide financial statements long term debt and other long-term obligations are reported as liabilities. If any, bond premiums and discounts, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

## Deferred Inflows of Resources

Deferred inflows of resources arise in governmental funds when potential non-exchange revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred inflows also arise when the government receives resources before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the deferred inflow is removed from the balance sheet and revenue is recognized.

## Fund Equity

In the governmental fund balance sheet, fund balances are reported using a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Governmental fund balance is classified as nonspendable, restricted, committed, assigned or unassigned depending on the level of constraints.

## NOTE 2 - ASSETS, LIABILITIES, AND FUND EQUITY (CONTINUED)

## Fund Equity (Continued)

Nonspendable fund balance includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. *Restricted fund balance* is the amount that is restricted to specific purposes by external requirements such as those of creditors, grantors, contributors or laws and regulations or imposed by law through constitutional provisions or legally enforceable enabling legislation. *Committed fund balance* is the amount that can only be used for specific purposes pursuant to constraints imposed by formal action of the Town's highest level of decision-making authority (the legislative body). *Assigned fund balance* is the amount that is constrained by the Town's intent to be used for specific purposes but is not restricted or committed. *Unassigned fund balance* is the residual classification for the general fund. Whenever multiple classifications of resources are available for use, it is the Town's policy to use restricted, committed and assigned resources in that order first, then unassigned resources as they are needed.

## Accounting Estimates

Accounting estimates are an integral part of the financial statements. They are based on our knowledge and experience about past and current events and assumptions about future events. Actual results may differ from our estimates.

## NOTE 3 - CASH AND CASH EQUIVALENTS

## **Deposits**

Throughout the fiscal year, all bank deposits were insured by Federal Depository Insurance (FDIC) or collateralized with securities held by the Town or its agent in the Town's name.

## Cash Equivalents

The Town participates in the *New Hampshire Public Deposit Investment Pool*. At this time, the Pool's investments are made only in securities approved by the New Hampshire Bank Commissioner with the assistance of the Advisory Committee, and in accordance with policies designed to preserve capital. While the Pool seeks to maintain a stable net asset value of \$1.00 per share, it is possible to lose money investing in the Pool. An investment in the Pool is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency.

## NOTE 3 - CASH AND CASH EQUIVALENTS (CONTINUED)

#### Concentrations of Credit and Market Risk

Financial instruments that potentially expose the Town to credit risk consist primarily of bank deposits and participation units of the New Hampshire Public Deposit Investment Pool. It is the Town's policy to deposit monies in high quality financial institutions according to State Statutes and to limit risk by maintaining deposits within the Federal Depository Insurance Corporation (FDIC) limits whenever possible or to require banking institutions to collateralize deposits. The Town has not experienced any losses on its cash deposits during 2020 and management believes the Town is not exposed to significant credit risk on those amounts. Each participation unit of the Pool is valued at one-dollar and does not fluctuate with the market values of underlying investments.

#### NOTE 4 - PROPERTY TAXES

The property tax year is from April 1 to March 31 and all property taxes are assessed on the inventory taken in April of that year. The 2020 property tax levy was based on a net assessed valuation as of April 1, 2020 of \$333,052,695. State Education Taxes were based on a State-wide equalized valuation of \$330,408,595. In connection with the setting of the tax rate, Town Officials, with the approval of the New Hampshire Department of Revenue Administration, establish and raise through taxation an amount for abatements and refunds of property taxes, known as overlay. This amount is reported as a reduction in tax revenue and is adjusted by management for any tax reserves at year-end. Property taxes collected by the Town include taxes levied for the State of New Hampshire, the Waterville Valley School District and Grafton County, which are remitted to these entities as required by law.

The tax rates and amounts assessed for the year ended December 31, 2020, were as follows:

	of A	\$1,000 ssessed uation	Property Taxes Levied			
Municipal portion	\$	9.09	\$	3,027,861		
County Tax Assessment		1.65		549,941		
Local School Tax Assessment		1.52		505,116		
State Education Tax Assessment		1.99		658,291		
	\$	14.25	\$	4,741,209		

#### NOTE 5 - TAXES RECEIVABLE

Taxes receivable at December 31, 2020, are as follows:

Uncollected Taxes		
Property	\$ 217,751	
Unassigned credits	 (20,192)	
		\$ 197,559
<u>Unredeemed Taxes (under tax liens)</u>		
Levy of 2019	\$ 11,597	
Levy of 2018	 9,558	
		21,155
		218,714
Reserve for uncollectible taxes receivable		 (5,000)
		\$ 213,714

The responsibility for the collection of taxes rests with the Town and tax amounts must be remitted to other municipal entities as requested. Any amounts due at year end are reported in these financial statements as Intergovernmental payables.

The Town subscribes to the semi-annual method of tax collection as provided for by RSA 76:15-a. Under this method, tax bills are sent on or around June 1 and November 1 of each year, with interest accruing at a rate of 12% on bills outstanding for more than 30 days. The June 1 billing is considered an estimate only and is one-half of the previous year's tax billing. The remaining balance of taxes due is billed in the fall after the State Department of Revenue Administration has calculated and approved the Town's tax rate for the fiscal year.

As prescribed by law, within 18 months of the date assessed, the Tax Collector places a lien on properties for all uncollected property taxes in the following year after taxes are due. The lien on these properties has priority over other liens and accrues interest at 18% per annum. If the property lien is not redeemed within the 2-year redemption period, the property is tax-deeded to the Town.

#### NOTE 6 - ACCOUNTS RECEIVABLE

Accounts receivables as of December 31, 2020 are as follows:

Accounts	
Utility services (Sewer, Water & MSD)	\$ 189,886
Other	 26,760
	\$ 216,646

#### NOTE 7 - INTERFUND RECEIVABLES/PAYABLES

Individual fund interfund receivable and payable balances at December 31, 2020 are as follows:

	 terfund ceivable	 Interfund Payable	
Governmental Activities:			
General Fund	\$ 702	\$ -	
Capital & Non-capital Reserves:			
Ladder Truck	 -	 702	
	\$ 702	\$ 702	

#### NOTE 8 - CAPITAL ASSETS

A summary of changes in capital assets for the fiscal year ended December 31, 2020 is as follows:

	Governmental Activities							
		Balance						Balance
		January 1		Additions	De	eductions	D	ecember 31
Land	\$	1,218,435	\$	-	\$	-	\$	1,218,435
Buildings & Other Structures		3,839,445		62,155		-		3,901,600

Machinery, Vehicles & Equipment		3,430,447		32,000		-		3,462,447
Infrastructure		11,947,720		832,733		-		12,780,453
		22,241,006		1,290,064		894,888		22,636,182
Less: Accumulated Depreciation		(6,820,289)		(564 <i>,</i> 155)		-		(7,384,444)
	\$	15,420,717	\$	725,909	\$	894,888	\$	15,251,738

#### NOTE 9 - RISK MANAGEMENT

Effective January 1, 2020, the Town contracted with Travelers Insurance for commercial liability insurance covered to \$1,000,000 per occurrence and \$2,000,000 in the aggregate; automobile insurance covered to \$1,000,000; umbrella liability covered to a \$5,000,000 per occurrence and in aggregate; and workers compensation and employers liability insurance up to \$1,000,000 per occurrence in accordance with statutes.

Total contributions billed for coverage period and any credits or balances due as of December 31, 2020 are as follows:

Property/Liability	\$ 62,469
Workers' Compensation	\$ 31,469

#### NOTE 10 - INTERGOVERNMENTAL PAYABLE

Payables due other governments at December 31, 2020 include:

## General Fund

Waterville Valley School District ~ *balance of 2020/2021 School District Assessment due in monthly installments though June 30,* 2021

\$ 603,407

#### NOTE 11 – LONG TERM LIABILITIES

#### Changes in General Long Term Debt

The following is a summary of the Town's general obligation long-term debt transactions for the fiscal year ended December 31, 2020:

	Balance			Balance	Due
	January 1,			December 31,	Within
	2020	Issued	Retired	2020	One Year
General Obligation Debt					
Bonds & notes	\$ 4,329,369	\$ 875,000	\$ 506,781	\$ 4,697,588	\$ 437,753

#### General Long Term Debt Payable

All debt is general obligation debt of the Town, which is backed by its full faith and credit. Long-term debt payable at December 31, 2020, is comprised of the following individual issues:

Description of Issue	 Original Amount	lssue Date	Maturity Date	Rate %	De	ecember 31 2020
General obligation bonds & notes:						
Fire truck	\$ 454,000	08/31/12	08/31/22	2.15	\$	90,800
Water and Sewer Improvements	\$ 481,900	02/03/14	02/03/24	3.19		160,635
DPW Garage	\$ 800,000	07/11/14	07/11/24	2.91		320,000
Water and Sewer Improvements	\$ 1,919,000	11/07/14	11/07/40	3.25		1,476,152
Corcoran Pond Dam	\$ 500,000	06/13/18	06/13/33	2.93		391,667
Town Entrance Sign & Paving	\$ 250,000	06/13/18	06/13/33	2.93		198,334
Well #3 Improvements	\$ 150,000	06/13/18	06/13/33	2.93		115,000
FD Ladder Truck;SW Trash Truck	\$ 1,078,000	06/15/19	06/15/44	2.58		920,000
Trail Improvements & Signage	\$ 150,000	12/31/19	12/31/30	2.58		150,000
Well #2 and #3 Improvements	\$ 875,000	12/31/20	02/15/41	3.00		875,000
					\$	4,697,588

## NOTE 11 - LONG TERM LIABILITIES (CONTINUED)

#### Annual Requirements to Amortize General Obligation Debt

The annual requirements to amortize all general obligation debt outstanding as of December 31, 2020, including interest payments, are as follows:

Fiscal Year Ending		General Obligation Notes and Bonds						
<u>December 31,</u>	Principal Interest To			Total				
2021	\$	437,753	\$	162,093	\$	599,846		
2022		437,753		146,676		584,429		
2023		382,353		131,501		513,854		
2024		323,808		117,892		441,700		
2025		243,808		106,401		350,209		
		1,825,475		664,563		2,490,038		
2026-2030		1,149,041		389,606		1,538,647		
2031-2035		884,040		205,402		1,089,442		
2036-2040		719,032		83,307		802,339		
2041-2045		120,000		9,300		129,300		
	\$	4,697,588	\$	1,352,178	\$	6,049,766		

## Bonds or Notes Authorized – Unissued

Bonds and notes authorized and unissued as of December 31, 2020 were as follows:

		Unissued
Authorization	Purpose	Amount
March 09, 2010 ~ Article 3	Impr. Water Treatment & Distribution	673,100
March 09, 2010 ~ Article 4	Extending W&S Lines - West Branch	499,050
March 12, 2013 ~ Article 7	Reconstruct Tripoli Road Base	183,000
March 12, 2019 ~ Article 9	FD Ladder Truck	500
March 10, 2020 ~ Article 4	Impr. Water Treatment & Distribution	125,000
		\$ 1,480,650

#### Voluntary Separation Program

For employees age 58 or older who voluntarily separate from service, Town Policy provides for the payment of health insurance premiums until the employee reaches age 65. In estimating future amounts due, the Town is using a 10% annual increase in costs based on actual experience of 8% annual increases. As of December 31, 2020, there were no employees participating in this program.

# NOTE 12 - NEW HAMPSHIRE RETIREMENT SYSTEM COST-SHARING DEFINED BENEFIT PENSION AND POSTEMPLOYMENT MEDICAL SUBSIDY HEALTHCARE PLANS

Full-time employees participate in the State of New Hampshire Retirement System (NHRS), a public employee retirement system that administers one cost-sharing multiple-employer defined benefit pension plan (Pension Plan) and four separate cost-sharing multiple-employer postemployment medical subsidy healthcare plans. NHRS was established in 1967 by RSA 100-A:2 and is qualified as a tax-exempt organization under Sections 401(a) and 501(a) of the Internal Revenue Code.

The cost-sharing defined benefit pension plan (pension plan) is a contributory, defined benefit plan providing service, disability, death and vested retirement benefits to members and their beneficiaries. Substantially all full-time state employees, public school teachers and administrators, permanent firefighters and permanent police officers within the State are eligible and required to participate in the Pension Plan. Full-time employees of political subdivisions, including counties, municipalities and school districts, are also eligible to participate as a group if the governing body of the political subdivision has elected participation.

The pension plan is divided into two membership groups. By statute, Group I (employee and teacher) members contribute 7% of their salary to NHRS. Group II (police & fire) members contribute 11.5% and 11.8% respectively. While member rates are set by statute, employer rates are set by the NHRS Board of Trustees every two years after a biennial actuarial valuation is conducted using the *Entry Age Normal* actuarial method. Employer contributions are assessed at five different rates, one each for state employees, political subdivisions employees, teachers, police and fire. NHRS employers are required by the New Hampshire Constitution to pay 100% of the actuarial sound employer contribution rate as certified by the NHRS Board of Trustees to fully fund the pension plan and to pay down the retirement system's unfunded actuarial accrued liability over a closed amortization period. Currently, employer contribution rates for the period July 1, 2019 through June 30, 2021 are as follows:

	Medical					
	Pension	Subsidy	Total			
Group I: Employees	10.88%	0.29%	11.17%			
Group II: Police Fire	24.77% 26.43%	3.66% 3.66%	28.43% 30.09%			

According to the requirements of GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, the Town recognizes their proportionate share of collective net pension liability, deferred outflows of resources, deferred inflows of resources and pension expense. As provided in the reports above, collective amounts have been allocated based on employer contributions during the respective fiscal years. Contributions to the plan are recognized when legally due, based on statutory requirements.

# NOTE 12 - NEW HAMPSHIRE RETIREMENT SYSTEM COST-SHARING DEFINED BENEFIT PENSION AND POSTEMPLOYMENT MEDICAL SUBSIDY HEALTHCARE PLANS (CONTINUED)

This information along with significant assumptions and inputs for total pension liabilities, the NHRS's fiduciary net position and current year sources of changes to net pension liabilities are available for the plan as a whole as well as audited cost-sharing schedules by individual members in the System's Comprehensive Annual Financial Report and other annual reports are available from the NHRS located at Regional Drive, Concord, NH 03301-8509 or on its web site at: https://www.nhrs.org and https://www.nhrs.org/employers/employer-resources/gasb/gasb-reports.

Benefit amounts and eligibility requirements for the cost-sharing multiple-employer postemployment medical subsidy plan (OPEB Plan) are set by state law (RSA 100-A:52, RSA 100-A:52-a and RSA 100-A:52-b), and members are designated in statute by type. The four membership types re Group II, Police Officers and Firefighters; Group I, Teachers; Group I, Political Subdivision Employees: and group I, State Employees. The OPEB Plan provides a medical insurance subsidy to qualified retired members.

The medical insurance subsidy is a payment made by NHRS to the former employer or its insurance administrator toward the cost of health insurance for a qualified retiree, his/her qualified spouse, and his/her certified dependent children with a disability who are living in the household and being cared for by the retiree. If the health insurance premium amount is less than the medical subsidy amount, then only the health insurance premium amount will be paid. If the health insurance premium amount exceeds the medical subsidy amount, then the retiree or other qualified person is responsible for paying any portion that the employer does not pay.

Group I benefits are based on creditable service, age and retirement date. Group II benefits are based on hire date, age and creditable service. The OPEB plan is closed to new entrants. Maximum medical subsidy rates paid during fiscal years 2020 and 2019 (the most recently available valuation dates) were as follows:

- For qualified retirees not eligible for Medicare, the amounts were \$375.56 for a single-person plan and \$751.12 for a two-person plan.
- For those qualified retirees eligible for Medicare, the amounts were \$375.56 for a single-person plan and \$751.12 for a two-person plan.

According to the requirements of GASB Statement No. 75, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, the Town recognizes their proportionate share of collective OPEB liability, deferred outflows of resources, deferred inflows of resources and OPEB expense. As provided in the reports above, collective amounts have been allocated based on employer contributions during the respective fiscal years. Contributions to the plan are recognized when legally due, based on statutory requirements.

#### NOTE 12 - NEW HAMPSHIRE RETIREMENT SYSTEM COST-SHARING DEFINED BENEFIT PENSION AND POSTEMPLOYMENT MEDICAL SUBSIDY HEALTHCARE PLANS (CONTINUED)

This information along with significant assumptions and inputs for total OPEB liabilities, the NHRS's fiduciary net position and current year sources of changes to net pension liabilities are available for the plan as a whole as well as audited cost-sharing schedules by individual members in the System's Comprehensive Annual Financial Report and other annual reports are available from the NHRS located at Regional Drive, Concord, NH 03301-8509 or on its web site at: https://www.nhrs.org/employers/employer-resources/gasb/gasb-reports.

#### NOTE 13 - DEFERRED INFLOWS OF RESOURCES

According to generally accepted accounting principles, taxes receivable older than 180 days are not recognized as available spendable resources and thus are deferred until collected. Other than those related to the New Hampshire Retirement System as noted above, Deferred Inflows of Resources at December 31, 2020 are as follows:

General	Fund

Taxes receivable not available to pay current obligations	\$	55,000
---	----	--------

#### NOTE 14 - FUND BALANCE

Elements of fund balance as of December 31, 2020 were as follows:

Capital & Noncapital Reserves Fund	
Committed for capital acquisitions & maintenance:	
Wastewater Toxicity Testing	\$ 8,197
Corcoran's Pond/Dam	4,291
Police Vehicle	440
Road Repairs	67,815
Fire Apparatus	263
Municipal Solid Waste Truck	10,436
Curious George Cottage	10,203
	\$ 101,645
Non-major Special Revenue Funds	
Restricted for special revenue purposes:	
Osceola Library	\$ 4,688
Conservation Commission	5,424
	\$ 10,112

#### NOTE 14 - FUND BALANCE (CONTINUED)

Non-major Capital Project Fund			
Committed for capital acquisitions & maintenance: WV Capital Improvements	\$	16,	.532
General Fund			
Restricted for National Night Out		\$	2,697
Committed for capital acquisitions & maintenance:			
Nature trail grant	\$ 3,696		
Ocseola Library repairs	30,403		
Arena capital improvements	17,519		
Town building engineering/repairs	16,308		
Aeration system	25,000		
Town wide engineering	85,352		
Well #3 evaluation & repair	26,413		
Corcoran Pond repairs	1,250		
Town entrance	113,961		
Town improvements	11,465		
Well#2 and #3 improvements	1,000,000		
Guardrail repairs	12,000		
Vehicle lease payments	9,998		
WWTP carbon filter replacement	16,531		
Wastewater collection repair	9,528		
Sludge drying maintenance	15,000		
Water distribution repairs	10,000		
Water assessment grant	36,296		
Wastewater assessment grant	 45,000		
			1,485,720
Unassigned			705,592
		\$	2,194,009

#### NOTE 15 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

#### <u>Grants</u>

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time although the Town expects such amounts, if any, to be immaterial.

## NOTE 15 - SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES (CONTINUED)

#### **Litigation**

The town is involved in a state-wide tax appeal by a communications company. At this time, there is no way of knowing what the outcome may be or what impact (if any) it would have. Interested parties should make inquiries of management regarding the status of this or any other matters.

## TOWN OF WATERVILLE VALLEY, NEW HAMPSHIRE NOTE TO REQUIRED SUPPLEMENTARY INFORMATION – BUDGETARY REPORTING FOR THE YEAR ENDED DECEMBER 31, 2020

The budgetary comparison schedule – Budget to Actual (Non-GAAP Budgetary Basis) presents comparisons of the original and final legally adopted budget with actual data on a budgetary basis.

#### **General Budget Policies**

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements that govern the Town's operations. The Town votes appropriations by official ballot in accordance with State Statutes. Appropriations are made on an annual basis for the General and all major Special Revenue Funds. Project-length financial plans are adopted for all Capital Projects. Except as reconciled below, budgets are adopted on a basis generally consistent with the modified accrual basis of accounting. Management may transfer appropriations between operating categories as they deem necessary, but expenditures may not legally exceed budgeted appropriations in total. Unexpended balances of special articles for specific purposes may not be transferred. All annual appropriations lapse at year end unless encumbered. In the case of emergency expenditures, over-expenditures are allowed under the provisions of the Municipal Budget Law (RSA Chapter 32) if prior approval is secured from the State Department of Revenue Administration. State statutes require balanced budgets, but provide for the use of beginning unassigned fund balance to achieve that end. In the fiscal year 2020, \$335,100 of the beginning General Fund balance was applied for this purpose.

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures and are therefore reported as part of the fund balance at December 31 and are carried forward to supplement appropriations of the subsequent year. Amounts recorded as budgetary expenditures in the *Budgetary Comparison Schedule (page 29)* are presented on the basis budgeted by the Town. The amounts differ from those reported in conformity with generally accepted accounting principles in the *Statement of Revenues, Expenditures and Changes in Fund Balances (page 9)* as follows:

Expenditures and Other Financing Uses ~ Budgetary Basis (see page 29)	\$ 4,556,891
Adjustments:	
Encumbrances - December 31, 2019	468,576
Encumbrances - December 31, 2020	 (486,905)
Expenditures and Other Financing Uses ~ GAAP Basis (see page 9)	\$ 4,538,562

#### TOWN OF WATERVILLE VALLEY, NEW HAMPSHIRE COMPARATIVE SCHEDULE OF PENSION OBLIGATIONS FOR THE YEAR ENDED DECEMBER 31, 2020

This information should be read in conjunction with the audited *Schedule of Employer Allocations* and *Schedule of Pension Amounts by Employer* presented by the NHRS. This information along with significant assumptions and inputs for total pension liabilities, the NHRS's fiduciary net position and current year sources of changes to net pension liabilities are available for the plan as a whole as well as audited cost-sharing schedules by individual members in the System's Comprehensive Annual Financial Report and other annual reports are available from the NHRS located at Regional Drive ~ Concord, NH 03301-8509 or on its web site at https://www.nhrs.org/funding-and-investments/reports-valuations/annual-report-archive and https://www.nhrs.org/employers/gasb/gasb-67-68-reports . As noted there in, the preparation of those reports requires management to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature and uncertainty of those estimates, actual results could differ, and the differences could be material. As of December 31, 2020, the Town has recognized all statutorily required contributions to the plan. Unless additional assessments are imposed by the NHRS Board due to insolvency or some other circumstances, all future obligations to the plan (subject to annual appropriation by the legislative body) will become due as a percentage of qualifying wages as they are paid by the Town. At this time, management understands that the NHRS foresees no likelihood of additional assessment beyond normal contribution rates, which are established every two years by a statutorily-governed rate-setting process. All future obligations of the Town to the NHRS will be paid by current appropriations as they become due.

#### TOWN OF WATERVILLE VALLEY, NEW HAMPSHIRE COMPARATIVE SCHEDULE OF OTHER POST EMPLOYMENT BENEFITS FOR THE YEAR ENDED DECEMBER 31, 2020

Estimated future OPEB obligations - New Hampshire Retirement System (NHRS). Selected comparative information from NHRS's audited financial statements and cost-sharing schedules that is specific to the Town is as follows:
