Selectmen's Ordinance #2

Bicycle Ordinance Revised

In view of public objection to the ordinance announced on July 28, 1972 by the Selectmen requiring "a bell or other device" for giving a sound signal on a bicycle, this ordinance is hereby rescinded.

The other portion of the bicycle regulation originally announced on the same date is repeated herewith, with explanatory remarks:

"Every bicycle when in use at nighttime* shall be equipped** with a lamp on the front which shall emit a white light visible from a distance of at least 500 feet to the front and with a red reflector on the rear of a type which shall be visible from all distances from 50 feet to 300 feet to the rear when directly in front of lawful upper beams of head-lamps on a motor vehicle. A lamp emitting a red light visible from a distance of 500 feet to the rear shall** be used in addition to the red reflector."

**Nighttime" is defined as the period lasting from a half-hour before sunset until a half hour before sunrise.

**The word "equipped" shall be interpreted to mean a light affixed to or mounted on the bicycle. It is felt by town officials that a light carried in the hand or on the leg of the rider is insufficient, although such light may be used as a supplement to the mounted lights.

***The word "shall" replaces the word "may" used when this ordinance was first published. This is the only change from the original wording.

Selectmen's Ordinance #9

Off-Premise Solicitation Ordinance

Section 1. Findings and Purpose.

The Town of Waterville Valley is vitally dependent upon tourism for its economic well-being. Tourism, in turn, requires that those coming to the Town for recreation and leisure be free from uninvited personal solicitations for commercial purposes in public and other "quasi-public" areas. The Town also finds that the free flow of pedestrian and vehicular traffic has important safety implications requiring the enactment of this Ordinance. The Ordinance, therefore, intends to restrict and regulate off-premise personal solicitation for commercial purposes to further the legitimate goals specified in the Ordinance.

Section 2. Definition.

In this Ordinance "off-premise solicitation" shall include any manner of uninvited personal approach or solicitation for commercial purposes, including the operation of a booth or a sale location, conducted other than on premises owned, leased, or otherwise controlled by the person making the solicitations.

Section 3. Prohibition/Exceptions.

Off-Premise solicitations as defined in this Ordinance is not permitted within the Town of Waterville Valley. Any person or entity may apply to the Selectman for a limited temporary permit to allow off-premise solicitation for a period not to exceed three (3) days, provided that the person or entity so applying shall have already received the written approval of the owner or lessee of the premises to be so used.

If the selectmen find that the solicitation will not substantially affect the interest sought to be protected by this Ordinance and is otherwise in the public interest (considering such factors as location, time of proposed solicitations, volume of pedestrian and vehicular traffic, facilities to be used in the solicitation, and other appropriate matters), they may grant the permit, with such conditions as they deem necessary to protect the public interest.

Section 4. Penalty.

Any person or entity violating this Ordinance may be fined not more than \$1,000 for each offense, with each day of violation constituting a separate offense. The net proceeds of any such fines shall be used by the Town for beautification of conservation purposes.

Section 5. Effective Date.

This Ordinance shall take effect upon its adoption. Adopted by Town Meeting vote, March 13, 1990, and affirmed by vote of the Board of Selectmen on July 26, 1995.
